

MATERIAL SAFETY DATA SHEET

Leather Doctor

LEATHER CLEANING WIPE

SECTION 1 – STATEMENT OF CHEMICAL PRODUCT AND COMPANY IDENTIFICATION

SUPPLIER: Leather doctor
ADDRESS: 6-8 enterprise st molendinar
Trade Name: **LEATHER CLEANING WIPE**
TELEPHONE: 1300 453 284 **FAX:**
AH EMERGENCY TELEPHONE: 13 1126 in Australia **ABN:**
Substance: Water based **Product Use:** Cleaning wipe
Creation Date: September 2014 **Revision Date:** September 2019
Product Code: **Email:** jason@fltcare.com

SECTION 2 – HAZARDS IDENTIFICATION

- This product is **NOT classified as HAZARDOUS** according to criteria of the Safe Work Australia.
- This product is **NOT classified as Dangerous Goods** according to the Australian Dangerous Goods (ADG) Code.
- This product is **NOT classified as a Scheduled Poison** according to the SUSMP.

Approved Criteria

Classification	Not hazardous	ADG Classification	none allocated
UN Number	none allocated	ADG Subsidiary Risk	none allocated
Shipping Name	none allocated	Packing Group	none allocated
Hazchem Code	none allocated		
SUSMP Classification	none allocated		

SECTION 3 – COMPOSITION AND INFORMATION ON INGREDIENTS

Ingredients determined not to be hazardous are present in concentrations that do not exceed the relevant cut-off concentrations as found from SAFE WORK AUSTRALIA publication "Hazardous Substances Information System" or have been found NOT to meet the criteria of a hazardous substance as defined in the NOHSC publication "Approved Criteria for Classifying Hazardous Substances".

Ingredients:	CAS Number:	Proportion:	Exposure Standards TWA	Exposure Standards STEL
Ingredients determined to be non-hazardous	Various	< 10% w/w	not set	not set
Water	7732-18-5	> 60% w/w	not set	not set

The **TWA** exposure value is the Time Weighted Average airborne concentration of a particular substance when calculated over a normal 8 hour working day for a 5 day working week. The **STEL** (Short Term Exposure Limit) is an exposure value that should not be exceeded for more than 15 minutes and should not be repeated for more than 4 times per day. There should be at least 60 minutes between successive exposures at the STEL. The term "peak" is used when the TWA limit, because of the rapid action of the substance, should never be exceeded, even briefly.

SECTION 4 – FIRST AID MEASURES

Scheduled Poisons Not a scheduled poison. Poisons Information Centre in each Australian State capital city or in Christchurch, New Zealand can provide additional assistance for scheduled poisons. (Phone Australia 131126 or New Zealand 0800 764 766).

First Aid Facilities Normal washroom facilities.

Skin contact Seek medical advice (e.g. doctor) if any irritation, burning or redness develops.

Eye contact Immediately irrigate with water for at least 20 minutes. Eyelids to be held open. Seek medical advice (e.g. ophthalmologist) if any irritation persists.

Ingestion Do NOT induce vomiting. Rinse mouth thoroughly with water immediately. Give water to drink. If vomiting occurs, give further water to achieve effective dilution. Seek medical advice (e.g. doctor).

Inhalation Remove victim to fresh air away from exposure - avoid becoming a casualty. Seek medical advice (e.g. doctor) if any symptoms persist.

MATERIAL SAFETY DATA SHEET

Leather Doctor

LEATHER CLEANING WIPE

Advice to Doctor Treat symptomatically. All treatments should be based on observed signs and symptoms of distress of the patient.

Aggravated Medical Conditions None known.

SECTION 5 – FIRE FIGHTING MEASURES

Fire and Explosion Hazards Water based. Not combustible - if involved in a fire, may emit toxic fumes.

Extinguishing Media Use an extinguishing media suitable for surrounding fires.

Fire Fighting Keep containers exposed to extreme heat cool with water spray. Fire fighters to wear self-contained breathing apparatus if risk of exposure to products of combustion or decomposition. Evacuate area - move upwind of fire.

Flash Point Not combustible

SECTION 6 – ACCIDENTAL RELEASE MEASURES

Occupational Release Minor spills do not normally need any special clean-up measures - simply collect containers and then rinse area with water.

In the event of a major spill, prevent spillage from entering drains or water courses. Wear appropriate protective equipment as in section 8 below to prevent skin and eye contamination. Spilt material may result in a slip hazard and should be absorbed into dry, inert material (e.g. sand, earth or vermiculite), which then can be put into appropriately labelled drums for disposal by an approved agent according to local conditions. Residual deposits will remain slippery. Wash area down with excess water. If contamination of sewers or waterways has occurred advise the local emergency services. In the event of a large spillage notify the local environment protection authority or emergency services.

SECTION 7 – HANDLING AND STORAGE

Handling Avoid contact with incompatible materials. When handling, DO NOT eat, drink or smoke. Keep containers closed. Avoid physical damage to containers. As with any chemical product, wash hands with water after handling.

Storage Store in a cool, dry, place with good ventilation. Avoid storing in aluminium and light alloy containers. Store away from incompatible materials (Section 10). Keep containers closed.

SECTION 8 – EXPOSURE CONTROLS AND PERSONAL PROTECTION

Exposure Limits National Occupational Exposure Limits, as published by Safe Work Australia:
Time-weighted Average (TWA): None established for specific product.
See **SECTION 3** for Exposure Limits of individual ingredients.
Short Term Exposure Limit (STEL): None established for specific product.
See **SECTION 3** for Exposure Limits of individual ingredients.

Biological Limit Value None established for product.

Engineering Controls None required.

MATERIAL SAFETY DATA SHEET

Leather Doctor

LEATHER CLEANING WIPE

Personal Protective Equipment	This product is a household conditioning product and is not classified as hazardous according to the criteria of Worksafe Australia. Use good occupational work practice. The use of protective clothing and equipment depends upon the degree and nature of exposure. Final choice of appropriate protection will vary according to individual circumstances i.e. methods of handling or engineering controls and according to risk assessments undertaken. The following protective equipment should be available;
Eye Protection	Generally not required to handle the product as per label directions.
Skin Protection	Generally not required to handle the product as per label directions.
Respirator	Generally not required to handle the product as per label directions.

SECTION 9 – PHYSICAL AND CHEMICAL PROPERTIES

Physical State	Moistened Wipes	Specific Gravity	Not available
Odour	Characteristic	Freezing Point	Approximately 0 °C
Boiling Point	Approximately 100 °C	Vapour Density	Not available
Vapour Pressure	Not available	Flammable Limits	Not applicable
Flash Point	> 63 °C (not flammable)	pH	Not available
Water Solubility	Miscible in all proportions	Coefficient of Water/Oil	
Volatile Organic Compounds (VOC)	0 % v/v	Distribution	Not available
Viscosity	Not available	Odour Threshold	Not available
Evaporation Rate	Not available	Per Cent Volatile	Ca 90 % v/v (liquid)

SECTION 10 – STABILITY AND REACTIVITY

Chemical Stability	Stable at normal temperatures and pressure.
Conditions to Avoid	None known.
Incompatible Materials	None known.
Hazardous Decomposition	Product can decompose on combustion to form Carbon Monoxide, Carbon Dioxide, and other possibly toxic gases and vapours.
Hazardous Reactions	None known.

SECTION 11 – TOXICOLOGICAL INFORMATION

PRODUCT MIXTURE INFORMATION

Local Effects	None known.
Target Organs	None known.

POTENTIAL HEALTH EFFECTS

Ingestion

short term exposure Low toxicity. Ingestion of large amounts may irritate the gastric tract causing nausea and vomiting.

long term exposure No information available.

Skin contact

short term exposure Not a known skin irritant.

long term exposure Prolonged and repeated skin contact with undiluted solutions may induce eczematoid dermatitis.

Eye contact

short term exposure Eye contact may cause mild stinging, blurring, tearing.

long term exposure No information available.

MATERIAL SAFETY DATA SHEET

Leather Doctor

LEATHER CLEANING WIPE

Inhalation

short term exposure Not an inhalation hazard.

long term exposure No information available.

Carcinogen Status

SWA No significant ingredient is classified as carcinogenic by SAFE WORK AUSTRALIA.

NTP No significant ingredient is classified as carcinogenic by NTP.

IARC No significant ingredient is classified as carcinogenic by IARC.

Medical conditions

aggravated by exposure No information available.

CLASSIFICATION OF INDIVIDUAL INGREDIENTS

NOTE : This information relates to each individual ingredient, when evaluated as pure undiluted chemical.

See SECTION 3 for actual proportions of ingredients present in this product.

Ingredients

Non hazardous ingredients 100%

R-Phrases.

None allocated

SECTION 12 – ECOLOGICAL INFORMATION

Fish toxicity None available for specific product.

Algae toxicity None available for specific product.

Invertebrates toxicity None available for specific product

Toxicity to Bacteria None available for specific product

General

Apply this product only as specified on the label. Product miscible in all proportions with water. AS WITH ANY CHEMICAL PRODUCT, DO NOT DISCHARGE LARGE QUANTITIES INTO DRAINS, WATERWAYS, SEWER OR ENVIRONMENT. Inform local authorities if this occurs.

SECTION 13 – DISPOSAL CONSIDERATIONS

Disposal The small quantities contained in wash solutions (when used as directed) can generally be handled by conventional sewage systems, septics, and grey water systems. To dispose of quantities of undiluted product, refer to State Land Waste Management Authority. Transfer product residues to a labelled, sealed container for disposal or recovery. Waste disposal must be by an accredited contractor. As with any chemical, do not put down the drain in quantity.

SECTION 14 – TRANSPORT INFORMATION

UN Number none allocated

Shipping Name none allocated

Hazchem Code none allocated

Packaging Method none allocated

Segregation none allocated

ADG Classification none allocated

ADG Subsidiary Risk none allocated

Packing Group none allocated

Special Provisions none allocated

SECTION 15 – REGULATORY INFORMATION

Labeling Details

HAZARD Not hazardous

RISK PHRASES None allocated

SAFETY PHRASES None allocated

SUSMP None allocated

ADG Code None allocated

This MSDS summarizes at the date of issue our best knowledge of the health and safety hazard information of this product, and in particular how to safely handle and use this product in the workplace. Since the supplier cannot anticipate or control the conditions under which the product may be used, each user must, prior to usage, review this MSDS in the context of how the user intends to handle and use the product in the workplace. If clarification or further information is needed to ensure that an appropriate assessment can be made, the user should contact this supplier.
